

February 23, 2022

Dear Supervisors Cobb, Gaulke, Hanson:

Citizens for Education in Town Governance respectfully requests a brief update on several topics at the town board's first meeting in March.

1. Last May Mr. Gaulke said he would draft a policy/procedure statement on how board members and others can get items on a town board meeting agenda. What is the status of the statement?
2. Last May and June, supervisors Cobb and Hanson asked the road crew foreman to prepare a five-year schedule/plan for road maintenance and construction. What is the status of the schedule/plan?
3. Last May, Supervisor Cobb suggested that the town's zoning administrator report to the board every few months. When will the zoning administrator report on data for 2021?
4. Last December/January, the town board noted that forums on strategic planning would be held to solicit public input. When will the forums be held?
5. At the board's direction, Mr. Gaulke sent a letter dated November 8, 2021 to the owner of the Raven Lake property enquiring whether acreage is available for sale (to be used as a site for construction of a new fire station). What is the response to the letter?
6. When and where will the town board hold the 2022 annual meeting?

Respectfully on behalf of Citizens for Education in Town Governance,

Norm Wetzel
